#### 1. Basis of preparation of interim report

This condensed interim financial report for the nine month period ended 31 March 2021 has been prepared in accordance with Accounting Standard AASB 134 *Interim Financial Reporting*. The interim financial report is presented in Australian dollars ("A\$").

The interim report does not include all the notes of the type normally included in an annual financial report. Accordingly, this report is to be read in conjunction with the annual report for the year ended 30 June 2020 and any public announcements made by Graphene Manufacturing Group Ltd during the interim reporting period in accordance with the continuous disclosure requirements of the *Corporations Act 2001*.

The accounting policies adopted are consistent with those of the previous financial year and corresponding interim reporting period.

#### Going concern

These financial statements were prepared on a going concern basis of accounting, which assumes that the Company will continue operations for the foreseeable future and be able to realise the carrying value of its assets and discharge its liabilities and commitments in the normal course of business. The Company generated revenue from operations of \$208,393 and incurred a net loss of \$2,726,297 for the nine months ended 31 March 2021. However, the directors believe that the existing cash resources following the successful completion of both the transaction and placement, as disclosed in note 10, are sufficient to meet its obligations for at least twelve months from the end of the reporting period.

#### (c) Income tax expense

Deferred tax assets are recognised only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses. The unused tax losses incurred by the Company are not recognised as there is uncertainty on when the Company is likely to generate taxable income in the foreseeable future. They can be carried forward indefinitely. As a consequence, there is no income tax expense.
