

# Health, Safety and Environment Policy

At Graphene Manufacturing Group we are committed to providing a safe and healthy work environment which positively contributes to sustainable environmental solutions both through our operations and our products produced.

In delivering these commitments we will:

- Provide a safe and healthy work environment for employees, contractors and visitors.
- Maintain a health and safety management system to comply with relevant industry standards and regulatory requirements.
- Provide our people with the relevant training and equipment to complete their work safely and without harm to others.
- Effectively consult and communicate with employees on HSE related changes in the workplace.
- Identify, assess and implement controls for health, safety and environmental hazards in alignment with our risk management processes.
- Encourage the efficient use of energy and resources to minimize our impact on the environment.
- Be considerate of our neighbours and the broader community with respect to our operations.
- Strive to deliver continuous improvement and report on our progress of HSE performance.

We will succeed together guided by our Values, HSE Management System and Leadership.
